P.O. Box 1108
Martinez, California 94553

To Our Valued Customers:

Over the past 17 years Acme Fill Corporation (Acme) has continued to modify its operations and update the Landfill facilities to comply with Federal, State and Local regulatory requirements. Although Acme continues to pursue new operational procedures and techniques to keep operating costs down, maintaining compliance with these regulatory requirements continue to increase every year. Recently many of California’s co-generation power plants in California have either closed or reduced the amount of wood chips they accept. When Acme had a market to ship its wood chips, the costs savings was passed onto its customers thus allowing Acme to reduce its rate for green waste disposal. Without the markets to ship the wood chips, green waste is now being buried with the other approved wastes received at the Landfill. As a result, effective February 5, 2018, the increased rates for disposal are as follows:

WASTE TYPE	RATE
Green Waste	\$95.00 per ton
Construction Debris, Yard Waste, Wood Waste, Scrap Metal, and Other Inert Wastes	\$100.00 per ton
Freon Appliances (refrigerators, freezers, air conditioners)	\$40.00 each
Non-Freon Appliances (washers, dryers, trash compactors, ovens, stoves, microwaves, hot-water heaters)	\$30.00 each
Mattresses and Box Springs	\$25.00 each
Furniture (couches and upholstered chairs)	\$15.00 each plus the weight of the load
Clean Soil (no rocks, roots, concrete, pipe, or chemical contamination)	\$50 per ton (min. \$25 per load)
Minimum Disposal Fee	\$25.00

The Acme Landfill has been “Contra Costa County’s Pioneer Sanitary Landfill” since 1954. We are committed to providing Contra Costa County and the surrounding communities an alternative disposal and recycling facility for green waste, construction debris, yard and wood waste, clean soil and all other inert wastes. We hope you continue to select our facility for your disposal needs as we value you as a customer.
