

**ACME FILL CORPORATION**  
**SOIL FILL DISCLOSURE STATEMENT**

---

**Important: This statement must be completed in full and submitted to Acme Fill Corporation with an original signature before soil fill can be disposed at the Acme Landfill. By signing this statement, you are certifying that the soil fill to be delivered to Acme is clean and does not contain detectable levels of chemical contaminants. Acme Fill Corporation Reserves the right to reject any load or require customers to perform analytical testing to verify the quality of the soil fill offered for disposal.**

**Telephone: 925-228-7099**

**Facsimile: 925-228-4484**

---

**CERTIFICATION**

The undersigned Customer and individual customer representative both certify under penalty of perjury that they have examined and are familiar with the soil fill offered by Customer for disposal at Acme Landfill through analysis and testing or knowledge of the soil fill waste. The undersigned represents and warrants that all such soil fill is clean and uncontaminated. The undersigned are aware that there are significant penalties for submitting a false certification, including the possibility of a fine or imprisonment. The undersigned agree to defend, indemnify and hold harmless Acme Fill Corporation and its officers and employees from any known and unknown claims, demands or liabilities, including attorneys fees, which may arise out of the Acme Landfill's acceptance and use of the soil fill brought to Acme by the undersigned Customer.

**CLEAN SOIL FILL ACCEPTANCE REQUIREMENTS**

1. The soil fill must not contain significant amounts of debris such as roots, rocks, concrete, metal, or other material that would make the soil fill unacceptable for use in a foundation layer at Acme Landfill.
2. The soil fill must not contain any detectable levels of petroleum hydrocarbons, other organic compounds, acids, caustic, or any other hazardous materials.
